GITHUB:- <https://github.com/Sahil-Bulbule/STUDY-PLANNER-WEB>

- ▶ Gained hands-on experience in building responsive web pages and **UI design**.

PROJECTS

Car Recommendation - Web Application

- Developed an interactive web application using HTML, CSS, and JavaScript
- Implemented a budget-based filtering system to display suitable cars dynamically
- Built a car comparison feature allowing users to compare two cars side-by-side
- Designed a simple logic to suggest the best car based on user budget and preferences.
- **GITHUB** :- <https://github.com/Sahil-Bulbule/CAR-RECOMMENDATION-WEB-APP>

Full Stack Expense Tracker - Web Application

- Built a full-stack expense tracker using **React and Firebase**.
- Features include authentication, dashboard (**balance, income, expense**), and transaction management.
- Integrated **charts** for data visualization.
- Displays structured **transaction history** similar to digital wallet apps.
- **GITHUB** :- <https://github.com/Sahil-Bulbule/Expense---Tracker>

Personal Portfolio – React Web Application

- Developed a responsive and modern personal portfolio website using React.js to showcase my technical skills, projects, education, and development experience in a structured UI.
- The portfolio is built using reusable React components with a clean and modular architecture, ensuring smooth navigation and optimized performance across all devices.
- **GITHUB** :- <https://github.com/Sahil-Bulbule/MY-PORTFOLIO>

SKILLS

Languages :-

C++ , Python.

Frontend Development :-

HTML5 , CSS3 , Tailwind CSS , JavaScript (ES6+) , React.js , Redux.

Backend Development :-

Flask , Django , Fast API (Currently Learning).

Database Management :-

SQL (Basics) , Firebase (Realtime Database, Authentication) , MongoDB.

Tools & Platforms :-

Git , GitHub , VS Code.

ACHIEVEMENT

- Secured 2nd Rank in Polytechnic Project Competition (Final Round)
